

## SUPER-SLIP SILICONE

MULTI-PURPOSE SILICONE LUBRICANT

### PRODUCT DESCRIPTION

**SUPER-SLIP SILICONE** is a premium quality multipurpose silicone lubricant and release agent. It provides excellent performance for lubricating applications up to 206°C. The fast drying and non-staining characteristic of **SUPER-SLIP SILICONE**, makes this product suitable on applications in the drapery and upholstery industries. Prevents rusting and corrosion on metals.

### WHERE TO USE

- ◆ **Upholstery and Apparel Industries:** - Cushion Filling, Sewing Needles, Cutting Tables and Knives.
- ◆ **Industrial:** Conveyor Systems, Door Rollers, Chains, Saws and Guillotines
- ◆ **Automotive:** - Locks, windows, car seat mechanisms, battery terminals and door hinges.
- ◆ **Home and Office:** - Windows, drawers, screens, locks, hinges, exercise equipment, snow throwers and shovels.

### HOW TO APPLY

Packaged in a variety of container sizes, including the easy-to-use aerosol containers. Simply hold the aerosol can, or spray equipment about 20 cms from the surface and spray from side to side in a sweeping motion. Avoid excessive wetting, as light applications are generally sufficiently effective.

### CAUTION

Do not apply **SUPER-SLIP SILICONE** to surfaces that may require paint or other coatings to be applied to. This will impede the adhesion of the coating. On these applications, use the **GRIP SLIP "PAINTABLE SILICONE"**. It is highly recommended that you test the substrate to which you will be applying **SUPER-SLIP SILICONE**. Avoid spraying on floors, as this makes them very slippery. Read the label, prior to using.
