

350 FOAM ADHESIVE

Multipurpose adhesive that bonds a wide range of lightweight materials

PRODUCT DESCRIPTION

Used to bond flexible urethane or latex foams to themselves, fabrics and other materials. On foam, this product provides fast tack adhesion and good tearing strength. Final bonds are strong, long lasting with no dimples and a soft flexible glue line. Coloured Green to help in the various spray applications.

SPECIAL FEATURES

- ◆ Long Open Time
- ◆ Excellent Green Strength
- ◆ Strong Permanent Bond
- ◆ Easy Application - Sprays well, without dripping
- ◆ Good coverage resulting in high yields with a light application

PACKAGING

350 FOAM ADHESIVE is packaged in 4 litre screw top oblong cans (4 per case) and 20 litre metal pails with a pouring spout on the lid.

SAFETY DATA

It is important to read the relevant safety data in the WHMIS section of the label and the relevant Material Safety Data Sheet, before using the product.
