

390 HI TEMP ADHESIVE

Multipurpose adhesive that bonds a wide range of lightweight materials for High Temperature Applications

PRODUCT DESCRIPTION

A premium quality, spray grade polymer contact adhesive, featuring a soft glue-line with rapid drying properties to minimise dimpling, coupled with excellent green strength, ideal for automotive, RV and marine interior applications. **Its high heat resistance is well suited for adhering headliners,** fabric, and many other materials during refurbishment. It forms durable, high-strength bonds to vinyl, leather, laminate, wood and most rubber and plastics. Resists temperatures over **90°C (194°F)**

SPECIAL FEATURES

- ◆ Long Open Time
- ◆ Excellent Green Strength
- ◆ Strong Permanent Bond
- ◆ Easy Application - Sprays well, without dripping
- ◆ Good coverage resulting in high yields with a light application

PACKAGING

390 FOAM ADHESIVE is packaged in 4 litre screw top oblong cans (4 per case) and 20 litre metal pails with a pouring spout on the lid.

SAFETY DATA

It is important to read the relevant safety data in the WHMIS section of the label and the relevant Material Safety Data Sheet, before using the product.

TYPICAL PROPERTIES

APPEARANCE:	Pink Liquid
COVERAGE	Approximately 16 square metres/litre (One sided application)
NON VOLATILES:	25%
FLAMMABILITY:	Flammable. Store and use under controlled conditions
ODOUR:	Strong solvent smell. Use in well ventilated areas
SOLVENTS:	Blend of Petroleum Distillates
SPECIFIC GRAVITY:	0.80 – 0.83
FREEZING POINT:	< 0°C
SHELF LIFE:	Approximately twelve months in closed containers.
