

476 FOAM ADHESIVE

PRODUCT DESCRIPTION

Packaged in **aerosol cans**. A premium quality, quick tack, fast curing general purpose, heavy duty adhesive that provides strong and permanent bonds. Used for bonding foam, fabric, burlap, cardboard, felt, cork, rubber, plastic to themselves and to metal, glass, wood and other surfaces. Formulated to be applied with the adjustable **3-way valve system** that provides optimum spray control for any application.

SPECIAL FEATURES

- ◆ For permanent or temporary bonds.
- ◆ High Solids, resulting in fast tack.
- ◆ Minimum soak-in and staining.
- ◆ Long open time.
- ◆ Good coverage resulting in high yields with a light application.
- ◆ The **3-way valve system** provides optimum spray control for any application.
- ◆ The adjustable nozzle allows for either a narrow, medium or wide band with a fine lace spray pattern. The lace spray pattern reduces overspray and ensures smooth, even coverage.

TYPICAL PROPERTIES

NON VOLATILES:	20%
FLAMMABILITY:	Yes. Store and use under controlled conditions
ODOUR:	Strong solvent smell. Use in well ventilated areas
SOLVENTS:	Hydrocarbon blend
SPECIFIC GRAVITY:	0.72
INCOMPATIBILITY:	Aluminum and similar alloys, as well as strong acids and strong bases.
SHELF LIFE:	Approximately twelve months
